***** EDITORIAL. *****

We have decided today, to use as our editorial, excerpts of an article which we consider should be of some interest to our readers, taken from a recent publication of the "Awake" magazine: "WHAT HAS NATIONALISM DONE TO MANKIND? "How greatly peace is desired by the masses of mankind! For centuries it has been longed for, but it has continued to be but a dream. Hatred and bloodshed have continued to be harsh realities. Our twentieth century has seen the most sickening demonstration of man's animosity toward his fellowman. In two world wars tens of millions of humans have been slaughtered and maimed. That animosity has not ceased, but continues unabated in this year of 1964. Differences in Race, religion and social status have contributed to the animosity. However, one of the greatest divisive factors of all is nationalism, that is the exaltation of one nation above all others, giving it supreme loyalty. The surface of this tiny planet is broken up politically into the territories of over 100 sovereign independent states. The number of these political splinters of humanity has nearly doubled since the end of World War 2. This does not make sense. Nor does it make sense that each of these should retain a sovereign right to jeopardize the human race's chance of survival by making war...How absurd it is, then, that the survival of the human race should be endangered by our loyalty to these ephemeral political creations. After all, we have to be human beings before we can be American human beings or Liberian human beings or Japanese human beings. Our humanity is a more basic fact than our nationality. If the human race goes down the drain, all human nations will go with it. It follows, surely, that

our loyalty to the human race should be paramount". But are men primarily concerned with the human race? On this matter Ivo Ducacheck in his book Conflict and Cooperation Among Nations, says: "Nationalism divides humanity into mutually intolerant units. As a result people think as Americans, Russians, Chinese, Egyptians, or Peruvians first, and as human beings second if at all". So the failure to recognize people first as members of the human race has split the world into a host of opposing factions, the leaders of which claim that the paramount loyalty of subject peoples belongs to the State, right or wrong". All too frequently this has been "wrong", and people have supported wicked, corrupt leaders in the name of Nationalism".

MacNaughton-Jones, declined to predict what his company's position would be after this period.

ALLEGED ROBBERY OF DEAD MAN.

Trinidad. Mon. Sept. 21st.
Detectives are investigating the mysterious disappearance of \$327 from the trousers pocket of a man who was pronounced dead on arrival at the San Fernando General on Friday night. They have already questioned some nurses and wardsmen. The investigations followed a report made by Mr. Edward Toolsie, son of the dead man, Mr. Irving Toolsie, a Texaco employee, who worked on Friday and during the night at home complained of feeling ill. His son put him in a car and drove off to a doctor. But on the way Mr. Toolsie's condition worsened and was taken to the hospital where he was pronounced dead on arrival. The son left to tell his relatives, and on his return found his father's body in the mortuary, with his pockets turned out and the money gone.

THINGS TO KNOW.

(Continued from last week).

The Vice-Commandeur was charged with the Administration of the State Farms and Salt Ponds. The Captain of the Indians directed no Indians but was charged with the execution of all tasks not specifically entrusted to other functionaries. He assisted in taking inventory of all state properties and kept track of all changes therein. Saddled with inspections, census and police functions - he also was supposed to supervise and direct Public Works. It fell to the Lieutenant of the Indians to organize donkey drives for export to Venezuela, Cuba, Jamaica etc.

GOVERNMENT REGULATION OF 1823.

Rules of Administration introduced in 1823 in no way diminished the authoritarian powers of the Commandeur. The Regulation dominated the 19th. century and impressed the patriarchal stamp upon Aruba with no trace of Self-Rule for the inhabitants. This state of affairs was the natural result of a largely illiterate population and the fact that Private individuals had not been able to establish themselves in Aruba. THE COUNTRY COURTS.

This body, created in Aruba for passing sentence, did not have a like counterpart anywhere else in the World. Called the Country Courts, "Courts of Peace", it consisted of the Commandeur as Presiding Officer and two of the most prominent and capable citizens who were called Magistrates. The body, assisted by a Court Recorder, received no remuneration and was charged with all affairs normally entrusted to the police in other communities. It refereed and settled all disputes between inhabitants which were not of a criminal nature and imposed fines up to 100 pieces and jail sentences to a maximum of 14 days.

UNION OF THREE WEST INDIAN COLONIES.

As a partial solution to the financial difficulties in which the Islands found themselves in the 1820's, it was decided to unite the three West Indian Colonies (Surinam, the Leeward Islands and the Windward Islands) under the one Government headed by a Governor-General located in Surinam. The Governor-General was assisted by an Advisory Council and represented in the Islands by subordinate Governors. (To be continued next week).

IT IS DANGEROUS. WATCH OUT!

Castor bean seeds have caused widespread concern among officials because they are so readily available. They are sold in any garden store for about 25 cents a packet, and are extremely popular, especially with amateur horticulturists, because they produce large plants with lush greenery in only one season. Yet, only one seed contains enough ricin, a powerful blood poison, to kill a child.

MUNTUM IN PARVO.

By: B. K. Chand.

A CREOLE PROVERB.

"A MAN CAN DO SOMETIMES WHAT HE LIKES,
BUT NOT AS LONG AS HE LIKES".

WHAT'S GOING ON AT LAGO'S COMMISSARY?
ARE IDEAS A LA DONVANOVIA STILL BEING
CARRIED OUT?

I told Mr. Mingus years ago, at a Joint Meeting, at which time I was Chairman of the then Representative body for locally-hired employees, "That if anyone keeps pressurising a tire with air, that sooner or later, it would give away and burst; so it was with human beings; that if they are being pressurised, that sooner or later, that they would have to rebel". I have seen a lot since; from my remarks not being taken seriously. Now what is happening at Lago's Commissary? Shelves are emptied and most times goods are not available. Items too, are being eliminated. Are these some ideas a la Donvanova, the man who played God still being carried out by his cronies he left behind? Are these things being done to get the patrons of the commissary fed up so that there will be a full proof excuse to close the commissary down? The commissary which was originated to aid employees and their families to cope with the high Cost of Living? Or is it as it is thought by many that a La Donvanova was not interested in the commissary at the time and he seemed to have had the biggest say, since the Foreign Staff personnel was dwindling or is it that he had suggested that the free news bulletin service was better than anything else than Oil? Now, Mr. Murray, I know that both you and Mr. Fred Switzer have been innocently blamed for a lot of cock eyed orders which were handed down a La Donvanova style, and think its time you both do something to

combat it, or you'll be left opened to accept the blame for these outrages created a La Donvanova. Perhaps, he is still thinking how he can get the Aruba workers to take it or leave it or pitch marbles and victimise representatives who try to do an honest and sincere duty which is highly acknowledged and considered by Esso Standard Oil. I always remember that picture I saw years ago: "The Man Who Played God". But there is only one True and Loving God; the Almighty, Jehovah!"
"Wake Up Donvanova! "A man sometimes can do what he likes, but not as long as he likes". Remember, "The Lord said unto my Lord, Sit thou on my right hand, till I make thine enemies thy foot stool". Matthew: 22; verse 44.

DEATH OF DR. ENGLEBRECHT IN U.S.

The sad news was received of the death of Dr. Rudi Amar Maré Englebrecht, Physician and Surgeon, which occurred in the U.S.A. last week, recently, as a result of a heart attack. The Humanitarian doctor 56 years of age, was from Surinam and for many years practiced his noble profession here. He left for New York a few years ago, to settle there with his family. The sad news, was received with an extensive amount of sorrow by all those who knew him. He was a great Humanitarian. The sick and their well being were his foremost thoughts. He never denied anyone treatment because they did not have financial means. As a matter of fact, the editor knows, where he many times assisted persons financially in paying for medicines and nourishments. He never pretended, and treated everyone alike regardless of Position, Colour or Creed. He was charitable and kind in many ways to several.

(Continued on Page 8).

Continued from page 7.

He was connected with many organizations and at one time was a strong advocate of Forrestry, being an active member of Court Aruba # 10028 of the Ancient Order of Forresters, San Nicholas. To all his bereaved relatives, we join in extending our heartfelt Sympathy. May the good doctors' Soul, Rest In Peace.

AN ENJOYABLE LONG VACATION.

Mr. A. Ivan Heyliger, Confidential employee of the Storehouse office at Lago and editor of The Sun a weekly English mimeographed paper, returned recently to Aruba after an enjoyable long vacation. Ivan said that he enjoyed every bit of it. He visited also Puerto Rico, St. Croix, St. Martin, St. Kitts, Antigua and Saba. We do not want to be left out from welcoming you back.

PARENTAL RESPONSIBILITY.

"Youthful criminality is one of our fastest growing and most serious problems", according to Mr. J. Edgar Hoover, director of the U.S. Federal Bureau of Investigation. "There is one common denominator in the background of almost all youthful criminals - parental neglect". He blamed soft law enforcement as next most reprehensible. Reporting the situation in Family magazine, he urged parents to take to heart these suggestions: "Maintain a strong family relationship with proper respect for parental authority a requirement of your children." "Provide your children with responsibilities by giving them specific tasks to perform. Encourage them to take on outside activities to earn money or perform voluntary services." "Keep your children busy with wholesome activities and control the type of television programs and movies they see. Keep informed on the whereabouts and activities of your

children. Know their associates and insure that social functions they attend are properly chaperoned". He urged, "Be a law-abiding citizen yourself....Realize that you are responsible for your children and their deeds. Do not shirk the responsibility!"

THINGS TO KNOW.

HODGKIN'S DISEASE.

This disease is assessed by an enlargement of all the lymphatic glands of the body, and enlargement of the liver and spleen. The main trouble with this condition is that the enlarged glands cause pressure on vital parts, on blood vessels and on nerves. The patient becomes very anemic. In the early stages the condition may be helped by discovering a possible cause and eradicating it. It is often a sequel to old infections in some parts of the body. Tuberculosis and syphilis must be excluded, and, if found, immediately treated. When the enlarged glands are few in number, they can be removed or treated with X-ray or radium.

LEUKEMIA.

Leukemia is sometimes called cancer of the white blood cells, simply because doctors know as little about it as about cancer; also because there is overformation and overmultiplication of the white blood cells, just as in cancer there is an overgrowth of other tissue cells or of entirely foreign cells. There are several varieties of leukemia, according to where the disease starts. In youngsters, it usually starts in the bone marrow where the white blood cells are formed and carried into the blood in undeveloped states and in fantastic numbers. In leukemia, the red blood cells become greatly reduced from loss by hemorrhages.

OIL, SUGAR OFFER LAND, AID TO JOBLESS.

Trinidad. Thurs. Sept. 24th.

Union representatives attending yesterday's sessions of tripartite talks on employment at the Trinidad Hilton were happy over the apparently generous offers of technical assistance and lands made by the oil and sugar companies as a means of providing more employment. Retrenchment and unemployment faded into the background as union officials listen to the offers. They include: An offer of unused drilling land for agricultural development by B.P. (British Petroleum). Texaco offered technical assistance and farm development. They also pointed out that they had parcels of idle land which they could hand over. Trinidad Sugar Estates Ltd. offered between 750 & 800 acres. Caroni said it was willing to loan equipment towards clearing and developing land. It was willing to make facilities available in the national drive to ease unemployment. Shell offered the use of a surveyor and put him at the disposal of one of the committees. The company told the meeting that it was developing 100 farm lots at Point Fortin. They were primarily for the use of retrenched workers. Ed. Note: A very nice way indeed for them to think of their retrenched workers and not leaving them to the dogs and the mercy of the ruthless. Surely very good South American Human Relations!

U.F. LEADER PETER D'AGUIAR FREED!

Georgetown. Wed. Sept. 23rd.

Mr. Peter D'Aguiar, United Force Leader, was this afternoon freed, by a unanimous verdict, of British Guiana's first ever charge of breaking the official secrets Act by possession of eight secret documents. The mixed jury took less than one hour over the verdict. As Mr. D'Aguiar stepped

from the dock he was greeted with hugs and tears plus kisses by many of his supporters. During the six-day hearing a bearded spectator, Bonnie de Souza, had jumped up in court shouting "D'Aguiar is my man, let him go". Mr. Justice Akbar Khan ordered him out of court and instructed that appropriate charges should be laid against him. Defence Counsel Mr. C. L. Luckhoo, QC, in his address to the jury, stressed that there was no evidence from the authors of the documents to show that they did not make copies available to other persons. The documents were found in a drawer and there was nothing to suggest that Mr. D'Aguiar knew they were there or had read them. The Judge told the jury that if they were satisfied the documents were communicated to Mr. D'Aguiar contrary to his desire, he was entitled to be acquitted.

GOVERNOR LUYT SAYS: "B.G. TO THE POLLS ON DECEMBER 7, THIS YEAR."

Georgetown. Fri. Sept. 25th.
British Guiana is to have elections under Proportional Representation on Monday, December 7, the Governor Sir Richard Luyt announced tonight in a radio broadcast, to the people. The British Guiana Constitution Order, 1964, creating the new single Chamber House of Assembly which will run the Government was signed today by Her Majesty Queen Elizabeth at Buckingham Palace. Simultaneously, in B.G. Sir Richard Luyt dissolved the two-chamber Legislative Assembly and Senate.

A statement from the Premier's Office said the decision for such action was taken by the Premier, Dr. Cheddi Jagan and his Cabinet. The alleged "gross violations of human rights and fundamental freedoms" arise out of the emergency powers assumed by the Governor and the arrest and detention of political leaders. Also the subject of protest is the "gerrymandered electoral system for an election long before it was due constitutionally", and the "failure to give the correct facts of the trouble leading up to the emergency".
